

SIMON LECHEVALIER

OPEN TO WORK

Full-Stack Engineer delivering high-performance Web2/Web3 systems with measurable business impact.

Builds scalable front-end architectures, secure smart-contract workflows, and SEO-driven platforms that reduce maintenance overhead, accelerate load times, and expand global reach. Focus on long-term design systems, reliability, and conversion-centric UX.

I'm looking for new opportunities to acquire knowledge, sharpen and expand my skills and to contribute to the success of the projects I work on.
