

SIMON LECHEVALIER

Full-Stack Software Engineer - React, Next.js, React Native, FastAPI, PostgreSQL, automation and Web3 integrations

simon.lechevalier@hotmail.fr | [LinkedIn](#) | [GitHub](#) | [CV Web](#) | [Portfolio](#)

PROFILE

Full-stack developer focused on shipping production-ready web and mobile products quickly. Comfortable across frontend, backend APIs, automation workflows, databases, deployment, SEO, CMS-driven content, and Web3 integrations. Open to junior/mid engineering roles, startup environments, solutions/integration engineering, and freelance work.

FEATURED PROJECTS

Jarvis Voice Assistant

Stack: React Native, Expo, FastAPI, Deepgram, Groq, PostgreSQL, Redis, Docker

- Built a functional spoken question-to-answer pipeline around 2 seconds across STT, LLM, TTS, APIs, and persistence.

ConvAI Speech Analysis Agent

Stack: Python, LLM APIs, audio ingestion, structured JSON outputs, automation workflows

- Created a reusable workflow that turns speech recordings into summaries, extracted insights, and automation-friendly JSON.

Teclis Scientific

Stack: Next.js, React, TypeScript, Tailwind CSS, Sanity CMS, REST APIs, SEO, multilingual architecture

- Revamped a legacy Wix system into a CMS-driven Next.js platform and expanded multilingual support from 3 to 10 languages.

StreamArena / UpArena

Stack: Next.js, React, TypeScript, PostgreSQL, Web3 libraries, smart-contract interactions

- Designed Web2-friendly interfaces for Web3 prediction flows, wallet actions, transaction feedback, and onboarding.

PROFESSIONAL EXPERIENCE

Full-Stack Developer - Freelance (Aug 2022 - Current)

- Built web and mobile applications with React, Next.js, React Native, FastAPI, Python, APIs, automation, SEO, CMS, and delivery.

Full-Stack Developer - Teclis Scientific (Jun 2025 - Nov 2025)

- Modernized a difficult-to-maintain marketing site into a CMS-driven international platform with cleaner SEO and content workflows.

Web3 Front-End & Integration Developer - Independent Projects (Jan 2022 - Dec 2025)

- Built wallet flows, smart-contract interactions, token-gated experiences, prediction mechanics, and clearer transaction UX.

TECHNICAL SKILLS

Frontend	JavaScript, TypeScript, React, Next.js, Tailwind CSS
Mobile	React Native, Expo
Backend	Python, FastAPI, REST APIs, Node.js
Data	PostgreSQL, Redis, Supabase, SQL
Delivery	Docker, Git, GitHub, CI/CD, Vercel, CMS workflows
Web3	Solidity, Ethers.js, Hardhat, wallets, smart-contract integrations

ADDITIONAL STRENGTHS

- Fast full-stack product delivery, API integration, automation, debugging, and refactoring.
- Product-minded UX decisions, SEO basics, Shopify/storefront constraints, and CMS-backed marketing sites.
- Languages: French native, English business level, Japanese conversational.

EDUCATION

University of Geneva - B.Tech in Computer Science - 2018-2022
