PROFILE

Frontend-oriented developer building polished React and Next.js interfaces with TypeScript, maintainable component systems, CMS-backed content, SEO foundations, and product-minded UX decisions. Open to junior/mid engineering roles, startup environments, solutions/integration engineering, and freelance work.

FEATURED PROJECTS

Teclis Scientific

Stack: Next.js, React, TypeScript, Tailwind CSS, Sanity CMS, REST APIs, SEO, multilingual architecture

- Revamped a legacy Wix system into a CMS-driven Next.js platform and expanded multilingual support from 3 to 10 languages.

StreamArena / UpArena

Stack: Next.js, React, TypeScript, PostgreSQL, Web3 libraries, smart-contract interactions

- Designed Web2-friendly interfaces for Web3 prediction flows, wallet actions, transaction feedback, and onboarding.

Jarvis Voice Assistant

Stack: React Native, Expo, FastAPI, Deepgram, Groq, PostgreSQL, Redis, Docker

- Built a functional spoken question-to-answer pipeline around 2 seconds across STT, LLM, TTS, APIs, and persistence.

ConvAI Speech Analysis Agent

Stack: Python, LLM APIs, audio ingestion, structured JSON outputs, automation workflows

- Created a reusable workflow that turns speech recordings into summaries, extracted insights, and automation-friendly JSON.

PROFESSIONAL EXPERIENCE

Full-Stack Developer - Freelance (Aug 2022 - Current)

- Built web and mobile applications with React, Next.js, React Native, FastAPI, Python, APIs, automation, SEO, CMS, and delivery.

Full-Stack Developer - Teclis Scientific (Jun 2025 - Nov 2025)

- Modernized a difficult-to-maintain marketing site into a CMS-driven international platform with cleaner SEO and content workflows.

Web3 Front-End & Integration Developer - Independent Projects (Jan 2022 - Dec 2025)

- Built wallet flows, smart-contract interactions, token-gated experiences, prediction mechanics, and clearer transaction UX.
